Software Proficiency;

UX Design, HTML, Java, JavaScript, PHP; MySQL and MongoDB Databases

Work Experience

Web Developer Intern - Kelm Inc January 2026 - May 2026

- Responsibilities included modifying, improving, and testing dynamic websites; using advanced **PHP** programming (database connections, record changes, statements - if, else, when, for loops, etc.) and **MongoDB** Databases. Well-versed in new database systems and improved communication, collaboration, and workflow skills.

Part-Time Administrative Assistant - Confidence Soccer August 2026 - Current

- Handle administrative and **data entry** duties, including **record management** of classes, properly signed and filled waivers through **Google Sheets**, and occasional emailing.

Part-Time Barista - CafeInn September 2026 - Current

- Provide **customer service** by taking orders, preparing espresso-based drinks, and assisting with other beverages. Also, prepare and warm food items according to cafe procedures. **Collaborate** with managers and co-workers while developing accuracy, adaptability, and good **teamwork**.

Projects

- Grand Central LIRR Website: (Created a website revolving around the Grand Central LIRR station: **HTML**, **CSS**, **JavaScript**, Google Maps API Key)
- SmartPlate Website: (Developed a full-stack, meal-planning app (*FSC Group Capstone Project*) with authentication, personalized nutrition features, and AI-assisted meal recommendations: **PHP, MySQL, Claude AI**)
- CoffeeShop Website: (Constructed a responsive front-end showcase website redesigned from an earlier PHP application for portfolio presentation: **HTML**, **CSS**, and **JavaScript**)
- CoffeeShop PHP: (Video showcasing a full-stack web application featuring user authentication, database integration, prepared SQL statements, filtering, and CRUD functionality. **PHP, MySQL**)
- React Task App: (Built a personal task-management web application with localStorage saving, task completion, and deletion, using **React**, **Vite**, and **JavaScript**)
- Art Exhibit Website: (Built an Art Portfolio Website based on one of my earliest HTML Projects during my introduction to web programming and I.T: **HTML**, **CSS**, **JavaScript**)
